

## We are happy to advise you!

Our experience has shown that good planning in the run-up to and during projects is essential for their sustainable success. Most extra costs and time delays are caused by uncertainties during the project execution. The later these uncertainties occur, the greater the problems and costs usually are. The alleged additional effort of good advance planning can save a lot of time, cost and aggravation.

The main fields of activity of **SEEFRIED Verfahrenstechnik GmbH** can be found in the areas listed on the right. We offer a wide range of services and know-how in all of these areas. Naturally, we are there to answer your questions on topics that we have not explicitly listed.

- **Homogenisation Technology**
- **Process Engineering in Agitation and Homogenisation Technology**
- **Temperature control**
- **CIP - SIP systems**
- **Transfer systems**
- **Control systems**
- **Software & interface descriptions**
- **DI - water purification plants - closed circular pipelines**
- **Steam plants**
- **Storage tanks - containers**
- **Pipelines**

You can find comprehensive information on the individual topics on our website at [www.s-vt.net/](http://www.s-vt.net/)  
We look forward to your enquiry.
