

Stainless steel platforms, stairs & railings

We manufacture for you stainless steel platforms, stairs and railings according to your requirements and in your required dimensions. We are also happy to take over the design and construction of your wishes/requests. You can freely determine a number of the variables of your stainless steel platform.

We are happy to design and build your platform according to your specifications! If you wish, we also take over the installation at your location.

You will find comprehensive information on the individual topics on our website at www.s-vt.net/
We look forward to your enquiry.

Stainless steel ram protection & stainless steel bollards

We construct for you stainless steel ram protection and stainless steel bollards, which also optically enhance your production areas.

In order to protect your high-quality clean room walls and production walls, we offer various versions of our stainless steel ram protection and stainless steel bollards.

If you have very special ideas and wishes, we will be pleased to note these and endeavor to implement them to the full extent, if feasible.

Naturally, we will also take over the installation at your location.
