

Good planning is halfway to the success of your project!

In the field of engineering, we are planning new process plants which are specifically designed for the area of "Agitation and Homogenisation Technology", or for optimisation of your existing process plant.

SEEFRIED Verfahrenstechnik GmbH has many years of experience in the field of "Mixing and Homogenisation Technology", and we will gladly accompany you from the conceptual design and cost estimation to the commissioning & process optimisation of your customised process plant.

The following is an overview of our services in the field of homogenisation technology.

- **Basic Engineering**
- **Construction support**
- **Procurement support**
- **Process plants – Requirement specification**
- **Schedule planning & monitoring**
- **Construction supervision of the process engineering plant components**
- **DQ - Design Qualification**
- **IQ – Installation Qualification**
- **OQ – Operational Qualification**
- **PQ – Process Qualification**
- **Process optimisation**

You will find comprehensive information on the individual topics on our website at www.s-vt.net/

We look forward to your enquiry.
