 Vakumix & NETZSCH
 Vakumix

4 SiC seal rings
 particularly wear-
 resistant

V4A housing
 FKM / EPDM O-rings

from EUR 2,001.72
 net plus VAT

— Sizes & prices

Size	Shaft Ø	Batch size	Price (net)
0	on request	Lab 2 / 5 / 10 L	on request
1	20 mm	15–100 L	EUR 2,001.72
2	24 mm	125–500 L	EUR 2,574.10
3	30 mm	600–1,500 L	EUR 3,039.70
3 reinforced	35 mm	600–1,500 L	EUR 3,322.10
4	45 mm	2,000–7,000 L	EUR 4,079.93
Special	25 mm	on request	on request

Prices per mechanical seal, net, plus VAT. Insured express shipping within Germany EUR 49.95 per seal, other countries on request. Made to order. Batch sizes approximate. The shaft diameter is decisive.

— Materials

Housing	V4A stainless steel
Seal rings	4 × silicon carbide (SiC) – alternatively e.g. carbon against chrome cast iron
O-rings	FKM, other elastomers such as EPDM on request

— Replace seal and shaft together

With age, imbalance develops and the shaft wears in the seal area. A new seal on an old shaft lasts much less long. After a crash we replace rotor, stator and shaft.

— Our service around your mechanical seal

Damage analysis
 of every removed seal with a
 short report

Testing
 after repair or fitting, on
 request with a test report

Collection & return
 by courier – convenient for
 you

Exchange seal
 so your plant keeps running

— How to order

1	2	3	4
Enquire shaft Ø, size or machine type and year	Scope seal, seal + shaft or replacement by us	Quotation with price and delivery date	Fitting in Weyhe or on site at your plant
