COMPATIBLE SPARE PARTS

Mechanical seals for Vakumix and NETZSCH Vakumix homogenisers

Double-acting mechanical seals for homogenisers of sizes 0 to 4 and for circulation agitators in pre-phase vessels – on request including seal replacement and a new shaft. Shipping almost worldwide.

Compatible – not an original part: Our mechanical seals are bought-in parts from specialised seal manufacturers and fit homogenisers from NETZSCH Vakumix and Vakumix. They are not original parts and this is not an offer from NETZSCH or Vakumix.

→ Full notice on trademarks and compatibility on page 2.

Prices per mechanical seal in EUR. **Customers in Germany:** net plus 19% VAT (gross price on the right). **Customers outside Germany:** the net price applies (VAT-exempt intra-community supply with a valid VAT ID, or VAT-exempt export delivery). **Deliveries outside the EU:** plus customs duties and customs clearance as well as any commissions. Batch sizes are approximate; the shaft diameter is decisive.

Shipping & delivery time

DESTINATION	SHIPPING PER SEAL	DELIVERY TIME
Germany	**EUR 49.95**	approx. 1 week insured express
EU and rest of Europe incl. Switzerland, UK, Norway, Liechtenstein, Iceland, Ukraine*	**EUR 99.95**	approx. 1 week
Worldwide all other destination countries	**EUR 199.95**	approx. 2 weeks

Dispatch after 3–7 working days. Sales exclusively to business customers.

No deliveries to sanctioned or excluded countries

We do **not** deliver to Russia, Cuba, Iran, North Korea, Syria or Venezuela, nor to Crimea or the regions of Sevastopol, Donetsk and Luhansk (*Ukraine). All deliveries are subject to applicable export control and sanctions regulations.

At a glance

Compatible
with Vakumix & NETZSCH Vakumix

4 SiC seal rings
highly wear-resistant

V4A housing
stainless steel

FKM O-rings
EPDM on request

Materials

Housing	Stainless steel V4A
Seal rings	4 × silicon carbide (SiC), alternatively e.g. carbon against chrome cast iron
O-rings	FKM, other elastomers such as EPDM on request

Replace seal and shaft together

With age, imbalances develop and the shaft wears in the seal area. A new seal on a worn shaft does not last nearly as long.

Our mechanical seal service

Damage analysis
of every removed seal with a short report

Testing
after repair or installation, test report on request

Collection & return
by courier – convenient for you

Exchange seal
to keep your plant running

How to order

1. **Enquire** – state shaft Ø, size or type and year of construction
2. **Scope** – seal, seal + shaft or replacement by us
3. **Quotation** – with price and delivery date
4. **Installation** – in Weyhe or on site

Notice on trademarks and compatibility

All brands and product names mentioned, in particular Vakumix, NETZSCH, LambdaVita, KappaVita and GammaVita, are the property of their respective owners and are used solely to identify the products offered. This is not an offer from the manufacturer. SEEFRIED Verfahrenstechnik is an independent supplier and is not affiliated with these manufacturers; the mechanical seals offered are compatible spare parts, not original parts but bought-in parts from specialised seal manufacturers.

Request the right mechanical seal

Tell us the shaft Ø, size or type – we will reply with price and delivery date.
